

EASILINER

Paper Release Liners to Seal-When-Ready

The **EASILINER** range provides paper-based, silicon release liners to protect pressure-sensitive glue lines and ensures that your product will stick only when needed.

Our paper-based EASILINER is ideal to deploy in the E-commerce sector. It complements our outstanding Rippatape® collection, allowing us to deliver closing and opening solutions.

PRODUCT INFORMATION

SEAL-WHEN-READY

The EASILINER range has been developed with E-commerce in mind. The range offers paper-based, single side coated, silicon release liners to protect pressure-sensitive glue lines. This means the glue will be ready to stick only when ready.

VARIETY

We offer kraft, glassine and clay coated paper liners. We can provide a range of grammages and finished reel widths. Talk to us about what you need.

VERSATILE

Filtrona's production capabilities allow us to offer both pancake and traverse/spool wound reel formats in our EASILINER range. This differentiates us from many suppliers on the market.

SOLUTIONS PROVIDER

We want to make our customers' lives easier. Our product and service offering is aligned to simplify your supply chain processes. The EASILINER range complements our easy opening tear tape ranges and allows us to offer a complete opening and closing solution for E-commerce.

Need help with application?
