

FLEXIBLE PACKAGING APPLICATORS

Total Tapes Solutions
Providing solutions - not just tape

Filtrona Tapes has over 50 years' experience of designing, supplying and installing applicators that complement our tape portfolio. This means we understand how to integrate tape solutions, making us better equipped to understand and support your business than a standard tape supplier.

PRODUCT INFORMATION

EASY INTEGRATION

Our applicators are designed to make our tapes easy to apply to packaging. Filtrona Tapes applicator solutions are constructed from materials that are fully compliant with industry standards, they can be optimised for easy integration on new or existing packaging lines and complement a variety of different packaging materials.

TECHNICAL EXPERTISE

Full advice, support and installation assistance is available through our technical experts. We also offer ongoing support with aftercare and applicator reconditioning if required.

VERSATILE

Our applicators have been designed to complement various packing methods such as Roll Wrap, Flow Wraps and Shrink Sleeve as well as food grade Paper & Board applications.

Our machines are suitable for various production line speeds and control methods.

SIMPLE TO OPERATE

Filtrona Tapes Applicators are easy to use within a manufacturing environment.

It is quick to train machine operators in the accurate tape placement and tension control parameters to ensure a quality application every time.

KEY BENEFITS

- Easy to integrate to new and existing packaging lines
- Versatile range of solutions suitable for a variety of processes
- Simple to operate with accurate tape placement and tension control
- Our technical experts are available to support applicator selection, installation and aftercare service
